

Live webinar and Q&A:

Calcific Bone Removal with Tenex Health Technology

PRESENTED BY:

Rahul N. Desai, M.D.

Musculoskeletal Radiologist - Interventional Joint & Spine Medicine
RestorePDX | VP Interventional Orthopedic Foundation

Rahul Desai, M.D. has used *Tenex Health Technology* to treat all anatomical areas, including the rotator cuff, flex/ext of elbow, glut min/med hip, hamstring origin, patellar tendon, quad tendon, achilles, plantar fascia, and multifocal plantar fibromatosis. In this webinar, he will discuss:

- shoulder tendonopathy, calcific tendinitis and calcific deposit excision.
- the new *TXBone* product for bone and hard tissue removal and its technique and effectiveness.
- his experiences and synergistic therapies with regenerative medicine.

Moderated by *Bernard F. Morrey, MD, Mayo Clinic, CMO Tenex Health.*
